Question 4 of 5

.

PART4:

A: I have a dream that I work as a tour guide. So I understand that I will have to fly to other countries. In my personal opinion, airplanes are currently too cheap compared to the damage they cause to the environment, so I believe we should add taxes to airline ticket prices to make people choose to use other means of transport before they think about flying. I believe that people are also very happy when they can contribute to protecting the environment.

B: My family and siblings live quite far from me. So I often have to fly to visit them every month when I have time. We really appreciate the time we spend together and we are happy to be able to meet each other and share our new story. I know that traveling by plane too much is not good for the environment so I often shop online or go to work by bike instead of going by car or I reuse plastic bags and paper bags. In addition, I sometimes volunteer to clean up trash in the neighborhood.

C: I was a businessman so I had to fly many times a week. I had to go to other countries to be able to sign wine trading contracts with them. I felt very tired every time I have to fly. Now, my sister and I, whenever we have free time, take the train together and we enjoy that time very much because I can travel while sightseeing and relax without any stress.

D: If I have to go somewhere I will choose other means of public transport, not the plane. Every time I go on a plane I feel extremely tired and I just hope time passes quickly so I can get off that plane. However, due to the specific nature of my job, I have to film in many different locations, so sometimes I cannot avoid having to take this public transportation.
